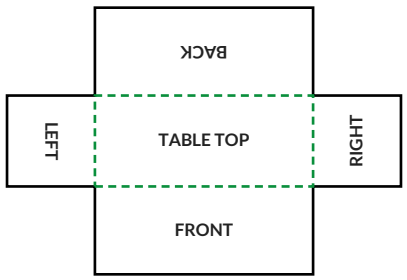
Cut line	Panel outline; grey corners are cut away
Seam / fold	Where the table top meets each panel
Safe zone	Keep logos, text & key art inside



Flat layout (not to scale). Panels are sewn at the corners into a boxy, fitted shape.

HOW TO SET UP YOUR ARTWORK

1. **Open this template** in Adobe Illustrator (or similar). Page 1 is the full-size artboard with guides on a separate "Guides" layer.
2. **Build at the size you order.** Your file must match this template exactly; don't resize it.
3. **Set color mode to CMYK.** RGB files are converted and colors may shift.
4. **Use 100-150 dpi raster images** at full size. Vector logos (AI/EPS/PDF/SVG) print sharpest.
5. **Keep the FRONT upright.** It faces your audience. Back and side text looks rotated in the flat layout but reads upright on the table.
6. **Stay 2" inside seams and edges** with logos and text, since corner seams can shift slightly. Extend backgrounds to the red bleed line.
7. **Outline all fonts** (Type > Create Outlines) and embed placed images. Hide the Guides layer before saving.
8. **Upload PDF, AI, EPS, PSD, PNG, TIF/TIFF, JPG or SVG.** AI or PDF preferred. Max 200 MB.

FREE ARTWORK HELP

- No design file? Send us your logo and we'll set up the layout for free.
- Every order gets a digital proof to approve before we print.
- Need a custom size? Upload your art and we'll build the template for you.
