HOW TO SET UP YOUR ARTWORK

1. **Open this template** in Adobe Illustrator (or similar). Page 1 is the full-size artboard with guides on a separate "Guides" layer.
2. **Build at the size you order.** Your file must match this template exactly; don't resize it.
3. **Set color mode to CMYK.** RGB files are converted and colors may shift.
4. **Use 100-150 dpi raster images** at full size. Vector logos (AI/EPS/PDF/SVG) print sharpest.
5. **Keep the FRONT upright.** It faces your audience. Back and sides look rotated in the flat layout but read upright on the table.
6. **Stay 2" inside fold lines and edges** with logos and text. Extend backgrounds to the red bleed line.
7. **Outline all fonts** (Type > Create Outlines) and embed placed images. Hide the Guides layer before saving.
8. **Upload PDF, AI, EPS, PSD, PNG, TIF/TIFF, JPG or SVG.** AI or PDF preferred. Max 200 MB.
